WORKSHOP ON PURE MODEL THEORY
UNIVERSITY OF EAST ANGLIA, NORWICH,
4-8 JULY 2005.

All lectures are in Room 01.08 of the Elisabeth Fry Building

Monday 4 July

0900-1000: Bruno Poizat (Lyon-1)
‘AMALGAMES/Amalgams I’

1000-1100: Bruno Poizat (Lyon-1)
‘AMALGAMES/Amalgams II’

1100-1140: Tea and Coffee in Constable Terrace A Common Room

1145-1245: Itay Ben-Yaacov (University of Wisconsin, Madison)
‘Model theory in positive and continuous logics I’

1245-1430: Lunch break

1430-1530: Ludomir Newelski (Wroclaw)
‘Multiplicity’

1530-1600: Assaf Hasson (Oxford)
‘On the theory of envelopes and homogeneous approximations’

1600-1640: Tea and Coffee in Constable Terrace A Common Room

1645-1745: Mike Prest (Manchester)
‘Functorial methods in model theory’
A satellite meeting of the Isaac Newton Institute for Mathematical Sciences programme
‘Model Theory and Applications in Algebra and Analysis’

WORKSHOP ON PURE MODEL THEORY
UNIVERSITY OF EAST ANGLIA, NORWICH,
4-8 JULY 2005.

All lectures are in Room 01.08 of the Elisabeth Fry Building

Tuesday 5 July

0900-1000: Itay Ben-Yaacov (University of Wisconsin, Madison)
‘Model theory in positive and continuous logics II’

1000-1100: Bruno Poizat (Lyon-1)
‘AMALGAMES/Amalgams III’

1100-1140: Tea and Coffee in Constable Terrace A Common Room

1145-1245: Ludomir Newelski (Wroclaw)
‘Small profinite structures’

1245-1430: Lunch break

1430-1530: Byunghan Kim (MIT)
‘Generalized type-amalgamation and n-simplicity I’

1530-1600: Alexei Kolesnikov (University of Michigan, Ann Arbor)
‘Generalized type-amalgamation and n-simplicity II’

1600-1640: Tea and Coffee in Constable Terrace A Common Room

1645-1745: Alex Usvyatsov (Hebrew University, Jerusalem)
‘Dependent theories’

1800-1845: Problem session

Supported by the EPSRC, the Isaac Newton Institute for Mathematical Sciences, and the London Mathematical Society.
A satellite meeting of the Isaac Newton Institute for Mathematical Sciences programme
‘Model Theory and Applications in Algebra and Analysis’

WORKSHOP ON PURE MODEL THEORY
UNIVERSITY OF EAST ANGLIA, NORWICH,
4-8 JULY 2005.

All lectures are in Room 01.08 of the Elisabeth Fry Building

Wednesday 6 July

0900-1000: Ludomir Newelski (Wroclaw)
‘Type-generated equivalence relations’

1000-1100: Itay Ben-Yaacov (University of Wisconsin, Madison)
‘Model theory in positive and continuous logics III’

1100-1140: Tea and Coffee in Constable Terrace A Common Room

1145-1215: Alex Usvyatsov (Hebrew University, Jerusalem)
‘Local stability in continuous logic’

1215-1245: Evgueni Vassiliev (Florida Atlantic University)
‘Weak nfcp and related conditions in simple theories’

1245-1430: Lunch break

Free afternoon
Thursday 7 July

0900-1000: Elisabeth Bouscaren (CNRS-Université Paris -Sud 11)
TBA

1000-1100: Martin Ziegler (Universitaet Freiburg)
‘Fields with black points’

1100-1140: Tea and Coffee in Constable Terrace A Common Room

1145-1215: Martin Hils (Université Paris 7)
‘Generalised Fusion’

1215-1245: Massoud Pourmahdian (IPM, Tehran)
TBA

1245-1430: Lunch break

1430-1500: Marko Djordjevic (University of Uppsala)
‘The finite submodel property and omega-categorical structures’

1500-1530: Alf Onshuus (Universidad de los Andes)
‘th-Forking’

1530-1600: Alfred Dolich (McMaster)
‘On model theoretic properties of structures expanding the real closed field’

1600-1640: Tea and Coffee in Constable Terrace A Common Room

1645-1745: Kobi Peterzil (Haifa)
‘Pillay's group conjecture and its solution’

1900: Conference dinner in ‘Vista’
A satellite meeting of the Isaac Newton Institute for Mathematical Sciences programme
‘Model Theory and Applications in Algebra and Analysis’

WORKSHOP ON PURE MODEL THEORY
UNIVERSITY OF EAST ANGLIA, NORWICH,
4-8 JULY 2005.

All lectures are in Room 01.08 of the Elisabeth Fry Building

Friday 8 July

0900-1000: Michael Chris Laskowski (University of Maryland)
‘Interpreting groups in strictly stable theories’

1000-1100: John Baldwin (University of Illinois at Chicago)
‘Perspectives on expansions’

1100-1140: Tea and Coffee in Constable Terrace A Common Room

1145-1215: Ziv Shami (Tel Aviv University)
‘Unidimensionality and the forking topology’

1215-1245: Hans Adler (Freiburg)
‘The lattice of algebraically closed sets’

1245-1430: Lunch break

1430-1500: Nicholas Peatfield (Universidade de Lisboa)
‘Generic Functions and Analytic Zariski Structures’

1500-1600: Boris Zilber (Oxford)
TBA

1600-1640: Tea and Coffee in Constable Terrace A Common Room

Supported by the EPSRC, the Isaac Newton Institute for Mathematical Sciences, and the London Mathematical Society.
